THE CLEVELAND LEAD IN DIRECTORY .- The new City Directory is now about finished. It will be delivered in a few days. Owing to the greater number of names published than have appeared in any former Directory, the labor of canvassing, compiling and printing has been increased; hence the unexpected delay in getting it out. FOURTH OF JULY CHARBRATION .- Quite a large number of the Committee of Arrange-ments met at the Mayor's office last evening for the purpose of proposing a definite programme for the proper celebration of the coming anniversary of our National Independence, and appointing the necessary sub-committees-Joseph Sturges, Esq., in the chair, and E. B. Perkins, Esq., Secre tary. But se Mr. Stillman Witt, the Chairman of said Committee, had not been apprized of the position he held-having been absent from the city-and as he de clined serving in that capacity, for the resson that he was to be absent a number of wonks, it was doesned best to deter taking definite action in the matter until this evening. It was decided, however, that it were best

to have an old fashioned celebration, consisting of a military and civic procession stion, fireworks, &c. On the withdrawal of Mr. Witt from the head of the Committee of Arrangements, the name of Colonel James Barnett was proposed, and a committee of five gentleen, namely, Messrs. W. P. Fogg, Amos

Townsend, Captain Pelton, E R. Perkins and W. H. Truscott, was appointed to wait upon the Colonel this morning and apprise him of his nomination, and also to appoint the necessary various sub-committees, on Finance, Music, Decorations, Orstor, &c. A general meeting, not only of the com nittee, but of citizens generally, is called

this evening at the Mayor's office. It is to be hoped that a large number of interested persons will meet there promptly at half past seven o'clock, and rush this business through. Whatever is proposed to be done in the way of a celebration, must be done quickly. The neighboring towns and cities are all getting the start of us, and if our citizens do not take hold very soon, the surrounding country will "go it" on their own hook, and we will be left to ride in a

FELL ARONG THISTES.—The Cincinnati Commercial says: "An acquaintance of ours, who recently made a visit to Cleveland, was rather rudely assaulted by a couple of thieves on the "garroting lay," while he was walking along Forest street, near Kinsman, at about nine o'clock at night .-One of the fellows caught him by the coliar, while the other attempted to punch him in the stomsch, so as to render him helpless. It happened, however, that the Cincinnatian was not only pretty well posted in affairs of that kind but well armed, and able to defend himself. FINANCIAL & COMMERCIAL.

FRIDAY BYRNISH, June 16, 1865. The chief "rhject of interest" in financial and commercial circles at present is Gold, and its finanations are easonly watched, and their probabieffects the oughly elecused and convamed by a c'asses of the bu ignes community. The eispatches from New York to day report a consider bis declive from the closing rate posterday, and repre-sent the market sain the hands of the "bears," who expect to be able to "cov r" at 140, at d are consequently on p'oping all their efforts to this and.
How ar they will be successful will depend upon
the streng h of the "bulls" and the semand for commercial uses, neither of which can be foretold. But unless the pressut advance is purely specura-tive we can see no good grounds for such an expectation se it is reported the bours entertain. The closing price at this afternoon's Board was 143%. Indications are that the shipments of specie to

morrow will be light.
The local money market was without notable change to day There is a little treer offering of mercantile paper at the Banks, but the d mend for incounts is not active for the season. The supply of avel able cutremey is close, and pore but lead mate, paper flucts occupiance. Exchange is close and firm at provious reles. The sains of Serun-thirties by the Serond Ha-

The Board of France of this city to day appointed its delegates to the Bariousl Trade Convention to be held at Detroit, bommenting on the 11th of July proxime. The names of the delegates will be found a our local column. The character of this C nention, and the important questions of finance vention, and the important questions or masses and trade it will consider, and justly regarded as untiling it to a degree of consideration inferior to that of no other hedy that has ever convened in this country having reference to its business interests. It is in he hoped that no inharmonious elements will obtracte to prevent the complete execution of the o' jects for which it is called.

In our general markets to-day there was a rather setter feeling on nearly all articles in our quoted list, and particularly in Whest, Corn and Oats, which were in better demand at the adva ce noted in our report of sales. Flour was less active, but the market ruled steady for trade brands. Provi stone are uper angred and firm. Priduce is quiet, but without quitable change. Highwines continue inactive. There is very little movement in Petroleam here at present, and we are only able to give nominal figures.

The following were the receipts and shipments at this point by Railroad, Lake and Canal of lead ing articles during the twenty four hours ending
